

EMBO | Japan Virtual Lectures

Sensory pathways governing locomotion and appetitive behaviour

May 11, 2021 | 16:00 – 18:00 JST

16:00–16:10: Welcome

Prof. Noriko Osumi, Vice President, Tohoku University, Japan
Prof. Maria Leptin, Director, EMBO, Germany

16:10–16:40: Sensing from within in the vertebrate spinal cord: An axial sensory system controls development, posture and innate immunity

Dr. Claire Wyart, ICM Group Leader and Inserm Research
Director, Institute for Brain and Spinal Cord (ICM), France

16:40–16:50: Q&A session

16:50–17:20: Elementary reward systems

Prof. Hiromu Tanimoto, Professor, Graduate School of Life
Sciences, Tohoku University, Japan

17:20–17:30: Q&A session

17:30–18:00: Meet the speakers

(for researchers @Tohoku University, upon invitation)

Open to the life
sciences community in
Europe and Japan

Registration:
